HIGHLIGHTS OF FINAL ROUND

Brendan 6 up and three to go started building sand castles and trimming trees - A gentlemanly act - give your opponent a chance.

Ian could have snatched victory on the last if he had sunk the first putt, had not hit the pie cart, played right handed or holed in one on the sixteenth etc.

A spy (roving reporter) on hand advised that Brendon's temporary lapse was nothing to do with Shane asking him if he knew where the "hole" was.

PUTTERCAM

This device will be secretly attached to a buggy each round, and will record a full round for committee analysis.

It has been in use over the break and we have some interesting info on members sneaking in practice.

Harding, Drew, Williams, Hicks, Romper Stomper Morcomb keep it up the handicapper has the films.

Two other members (Mitchell and Plumber) were recorded mowing lawns - not practice but obviously building up points for the year to come.
(The handicapper is currently checking the lawn mowers)

NEXT ROUND - 21st March, Mornington 7.00am

Normal prizes will be available with the I Callen perpetual trophy available for the longest drive - A striking piece of art, with a broken three iron mounted on a jagged iron base.

Spy informs me that it was broken during a heavy putting practice session while Ian was in South Africa.

Have a good round and remember people are watching - Spy, puttercam and of course the handicapper.
